

2005 Flu Clinic Schedule

The Visiting Nurses of the Lower Valley will be offering flu shots according to the CDC's recommendations. Until October 24, 2005 vaccinations will only be provided to those 65 years of age and older, unless an individual has a chronic condition, or is pregnant. While a doctor's note will not be necessary, we ask that everyone abide by these recommendations so that those at greatest risk can be served first. Clinics held after October 23 will be open to all who are 9 years of age or older. Younger children should be seen by their physicians.

There is no need to call for an appointment. The charge will be \$25; Medicare can be billed for those who are beneficiaries.

October 18	Essex Town Hall Auditorium	65+ years old OR ages 9 – 64 with a chronic condition OR pregnant women
